QUALITY
192kHz/24BIT**

LIGHT UP YOUR VOICE

LED colour lighting makes a bold statement on its small footprint desktop stand or optional boom microphone arm. Choose from colour cycling, one colour, or turn off the lighting to suit your mood.

BROADCAST QUALITY 192kHz/24BT

With a sampling rate of 192kHz and 24bit high resolution audio the StreamX delivers broadcast quality input ideal for Calls, Podcasts, Gaming, Streaming, Recording and Voice Overs.

PLUG & PLAY USB MICROPHONE

Simply plug in the microphone into any USB A, or USB C port with provided USB A/C adaptor, and you are good to go. Supported platforms include Windows 7 or above, MacOS 10.10 or above, PS4 and PS5.

UNIDIRECTIONAL CARDIOID POLAR PATTERN

The StreamX features a unidirectional Cardioid polar pattern that prioritizes sound sources directly in front of the microphone. An internal pop filter protects from plosives and booms.

TAKE CONTROL

The StreamX puts you in control with Tap to Mute, LED adjustment, Headphone Volume, Microphone Gain and Zero Latency Monitoring all with their own volume control right at your fingertips, where you need them.
