Store 'n' Go® Secure Pro USB 3.0

We've taken data security to the next level with the Store 'n' Go Secure Pro USB drive. Once configured with your password, all data stored on a Secure Pro USB drive is encrypted with powerful hardware-based 256-bit AES encryption to prevent unauthorized access. The encrypted data is password protected, and additional anti-tampering features help safeguard your data from brute force attacks or password hacking attempts. Even if your device is stolen, the Store 'n' Go Secure Pro's features will keep your data safe and secure. With USB 3.0 connectivity, for faster transfer speeds*, the Store 'n' Go Secure Pro is ideal for securing business data, legal documents, personal health information and other forms of sensitive data on the go.

Key Features

Ultra Secure
256 bit AES hardware data encryption secures confidential data. Mandatory password protection ensures your sensitive data is always safe
